

Sulphate of Potash

- A low chloride, non-burning source of potassium for increased nitrogen use efficiency, stress tolerance and winter hardiness.
- A naturally slow-releasing form of potassium.
- Provides essential sulphur in the sulphate form.
- Suitable for applications to greens and other close-cut turf throughout the growing season.
- Uniform particle sizing for accurate applications.

General Information

Part Code: 5141371
 Particle Size: SGN: 120
 Net Weight: 25kg (55 lbs)
 Coverage: 25kg (55 lbs) covers 2,604 m² (28,019 ft²)
 1.6 bags per acre (4 bags per Ha)
 Application Rate: To supply 1 lbs potash per 1000 ft² apply at 2 lbs / 1000 ft² (0.96 kg / 100 m²)

Guaranteed Minimum Analysis

Soluble Potash (K₂O) 50%
 Sulphur (S) 17%
